Peter J. O'Neil, Port Carbon, a pa

Frank Bastian, Mahanoy City, a pas JOHNSON CONCEDED A POINT.

The Sale of Detroit Railway to Manici-

pality May Be Consummated, DETROIT, May 17 .- Tom L. Johnson, a representative of the street railway companies, has conceded one of the main points of difference which have been blocking negotiations for the purchase of the roads by the city. The city's commissioners refused to execute any security franchise to secure payment of the purchase price unless that instrument provide for present rates of fare on three-cent as well as five-cent

lines. This concession has now been 1. The most important question remaining at issue is whether the proposed 30 year security franchise shall run from the date of sale or from expiration of present franchises, averaging about 16 years hence. The commissioners assert that they will agree to no franchise exending longer than 30 years from date of the transfer. It is understood that the two sides can agree upon a price of between \$16,000,000 and \$17,000,000 in i0-year bonds or about \$15,300,000 cash

if the commission can itself float the bonds.
